

# THE TRUTH OVER TREASON CAMPAIGN

*Stop War by Exposing the 9/11 Cover-up.  
Expose the 9/11 Cover-up Through a Grand Jury.*

This Call for Action, Issued by the Center for 9/11 Justice, New York 9/11 Truth, and 911hartal.org is Issued March 7, 2010, in Valley Forge, PA, at the Treason in America public conference.

The new **Truth Over Treason Campaign** hereby announces a campaign and a plan to convene a Grand Jury into 9/11/01.

The conveners of this Campaign, with our legal team and attorneys, believe that there is “probable cause” to assert that certain members of the Bush/Cheney administration are guilty of criminal acts of treason, based on evidence that is already in the public domain, a sample of which is set out below. This **Notification** aims to empower *you*, the U.S. Citizen, to also engage in this noble cause for justice. Review the law. Sign on. Deliver this notice to an elected official, judge, or prosecutor in *your* home jurisdiction.

## NOTIFICATION OF TREASON AND MISPRISION OF TREASON IN THE MATTER OF SEPTEMBER 11, 2001

### BACKGROUND:

**Treason**, the only crime identified in the Constitution of the United States, in Article III, Section 3, is defined as follows:

“Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.”

**Misprision of Treason** (18 U.S.C. § 2382). is defined as:

“Whoever, owing allegiance to the United States and having knowledge of the commission of any treason against them, conceals and does not, as soon as may be, disclose and make known the same to the President or to some judge of the United States, or to the governor or to some judge or justice of a particular State, is guilty of misprision of treason and shall be fined under this title or imprisoned not more than seven years, or both.”

AS CITIZENS OF THE UNITED STATES, we have learned of treasonable offenses that took place on September 11, 2001. The attacks of that day destroyed the property of the United States (the Pentagon, the Offices of IRS, FBI, etc.) and were declared an act of war of Al Qaeda by the Commander in Chief of the United States. We have been further informed that fellow citizens and members of the United States Government were complicit in those attacks, and must therefore be considered traitors under Article III, Section 3 of the United States Constitution. We have been further informed that other fellow citizens have engaged in acts designed to conceal the complicity, referred to above, and thus are guilty of Misprision of Treason under 18 USC 2382.

I, (print your name here) \_\_\_\_\_, the undersigned citizen of the United States, in accordance with 18 US Code 2382, Misprision of Treason, do hereby notify an official of government of the treason committed on September 11, 2001, evidence of which is set out below, and demand that that official honor their sworn oath to uphold and protect the Constitution of the United States.

## EVIDENCE OF TREASON & MISPRISION OF TREASON

### 1. FALSIFICATION AND COVER UP BY NIST

The National Institute for Standards and Technology (NIST) erroneously concluded in their September 2008 final report to Congress that World Trade Center 7 collapsed due to fire damage. If true, it would have been the first steel-framed skyscraper in history to collapse due to fire alone. NIST, in dereliction of accepted forensic procedures, chose not to look for evidence of explosives or incendiaries as per National Fire Protection Association’s published guidelines for investigations of highly destructive fires, (See *NFPA 921* or [www.nfpa.org](http://www.nfpa.org)). The NIST report failed to explain the absence of large concrete debris, or the presence of millions of tons of fine powdered dust over lower Manhattan on 9/11/01. NIST further engaged in false and fraudulent scientific practices in an effort to conceal the true cause of the collapse of WTC 7. Important forensic evidence from the World Trade Center, including most of the steel from WTC 1, 2 & 7, was hastily and deliberately destroyed or disposed of before it could be properly examined as would be required in any investigation of such a catastrophic event.

## 2. NIST FAILURES TO EXPLAIN FREE FALL ACCELERATION IN THE COLLAPSES AND NANOTHERMITE

The conclusions of NIST with regard to all three World Trade Center steel framed skyscrapers (WTC 1, 2, & 7) are contradicted by the speed of their collapse and the amount of energy expended in their destruction. The NIST reports failed to explain evidence that temperatures attained during the destruction were inconsistent with open air, carbon-based fires. NIST also failed to explain the smooth and linear acceleration of all three buildings during portions of their collapses which took place at or close to free fall speed. NIST made no relevant reference to more than one hundred first responders who reported explosions at or near the towers before and during the times of the collapses. NIST, though made aware of its presence, made no effort to explain the fact that a military grade high tech substance known as nano-thermite, capable of being engineered as either an explosive or incendiary, was found in significant quantities in the debris samples of the World Trade Center's destruction throughout lower Manhattan.

## 3. EXPLOSIVES AND INCENDIARIES DISCOVERED IN WTC DEBRIS

**Thermite** (an extreme high temperature incendiary capable of rapidly cutting steel) and **nano-thermite** (a substance which can be engineered to be incendiary or explosive) have been identified by independent scientific researchers as being present in four separate, independently collected samples of dust and debris from the vicinity of the World Trade Center at different times during and shortly after the destruction of the WTC. These samples contain red and gray chips, an advanced engineered mixture of nano-scale aluminothermic composite materials of a highly explosive nature.

## 4. THE U.S. MILITARY IS THE ONLY KNOWN SOURCE FOR MATERIALS FOUND IN DEBRIS SAMPLES

Professor of chemistry at the University of Copenhagen, Dr. Niels Harrit, among others, after studying this red and gray material, published a peer reviewed scientific paper "Active Thermite Material Discovered in Dust from the 9/11 World Trade Center Catastrophe" and stated in a published interview in May 2009: "There are no experts on nano-thermite without connections to the military.... This stuff has only been prepared under military contracts in the USA and probably in bigger allied countries. This is secret military research...It was not prepared in a cave in Afghanistan."

## 5. 9/11 COMMISSION COUNSEL ADMITS THE FAILURE OF THE 9/11 COMMISSION TO ESTABLISH THE TRUTH

Senior Counsel for the 9/11 Commission, John Farmer, disclosed in his book, *The Ground Truth* "...at some level of the government, at some point in time...there was an agreement not to tell the truth about what happened... I was shocked at how different the truth was from the way it was described..." The North American Air Defense Command (NORAD) tapes tell a radically different story from that told to the public for over two years after the attacks.

Historically, whenever aircraft transponder contact is lost, USAF fighter jets are scrambled to investigate. This has occurred about 100 times per year and normally takes less than 20 minutes. On the morning of the attacks, after notification of transponder signal loss and possible hijackings, close to two hours passed without a single Air Force interception.

## 6. US GOVERNMENT OFFICIALS WERE FOREWARNED OF IMPENDING 9/11 ATTACKS

There were warnings of the impending attacks from as many as eleven US Allies conveyed to US Intelligence. Prior to 9/11, members of the Bush Administration such as Attorney General John Ashcroft, several top military officers, and San Francisco Mayor Willie Brown were warned by the Executive Branch of the government not to fly on commercial flights on September 11th, 2001. Further evidence of foreknowledge of the impending attack is indicated by abnormal insider trading of put options placed on American and United Airlines stocks.

## 7. EVIDENCE OF AL QAEDA INVOLVEMENT WAS FABRICATED BY GOVERNMENT OFFICIALS

According to government investigators, evidence offered to implicate the 19 Arabs as hijackers of the four commercial flights, consisting of passports, business cards, and other personal effects, survived the fiery and completely destructive plane impacts, one of many instances of the fabrication of evidence in the attacks. Furthermore, while several of the alleged hijackers had, at some time, been housed on US military bases, two lived with an undercover FBI agent, and several others, such as the alleged Ziad Samir Jarrah who piloted the hijacked flight 93, were brought over to flight school in Florida by the CIA.

## 8. VICE PRESIDENT CHENEY'S INVOLVEMENT ON THE DAY OF THE ATTACKS.

According to the testimony of former Secretary of Transportation, Norman Mineta, Vice President Cheney issued an order with regard to an airplane heading toward the Pentagon, just before the explosions there. It may be deduced that the order Cheney gave allowed the airplane to proceed undeterred by American air defenses. In light of the failure to prevent the attack, the other possibility, that the order was to shoot the plane down, may be ignored, given the absence of disciplinary action within the military in the aftermath of the attacks. Vice President Cheney denies that he was in the room at the crucial moment.

**ADMINISTRATIVE DETAILS:** Please fill out keep the top (white) sheet as your record of your commitment to deliver this Notification to a judge in your home jurisdiction. Please return the Yellow copy to Sander Hicks, today.
